Durability

The X FIT VAN provides consumers with wet/dry handling and braking, durability and an improved mileage.

## FEATURES

- Optimises wet performance
- Secure stability and handling
- Long tread life
- Improved durability
- Designed to resist external damage

### ***X FIT VAN***

Speed Symbol : T/H/R/S

S.W. : 165~235

Series : 60~75

Inch : 14~16"

EU Label : C~E / B~C / W2

### Performance information

# Handling and braking

The X FIT VAN offers exceptional handling and braking for an optimized on-road driving experience.

## Safety by braking performance

Enhances safety by improving wet braking performance.

## 3-channel wide grooves

The use of 3-channel wide grooves significantly reduces hydro-planing and enhances stability even at high speeds.

## New 3D lateral grooves

Enhances wet performance without sacrificing block strength.

## Sipes

The designs minimised block movement ensures maximum steering stability.

## Zigzag diamond grooves

The 3D diamond cut block edge ensures excellent traction and enhances optimal handling by supporting the blocks when cornering.

# Durability

Durability

The X FIT VAN ensures a capable driving experience with a focus on durability.

### Belt edge tape

Stronger bonding between the belts ensures driving stability at high speeds whilst the durable structure is designed to sustain vehicle loads.

**X FIT VAN**

Standard tyre

### The RCS construction

The special rubber material enhances structural coherence, improving durability and stability, which are essential factors to sustaining heavier vehicle loads.

**X FIT VAN**

Standard tyre

### Durable contact patch technology

The optimal block and groove width design improves durability by maintaining even pressure.

# Wear life

Fuel Efficiency

Wear Life

The X FIT VAN provides secure driving from beginning to end, with a long tread life.

## Mileage and fuel efficiency

The squared foot design ensures more tyre-road contact and greater fuel mileage.

Low Fuel Consumption

## Long mileage carbon compound

Carbon compounds are smaller than those found in existing materials that greatly reduce energy dispersion.

## 2 step block

The design reinforces centre block stiffness and improves traction.

# TYRE STRUCTURE

The X FIT VAN adopts new technology for the LT commercial van, engineered for on load performance.
